Mia Reyes

Junior Full-Stack Developer

Recent USC graduate. Comfortable with React, Python, and shipping small things end-to-end.

SUMMARY

BS Information Systems graduate looking for a first full-time engineering role in Cebu. Two years of side-project experience across React, Next.js, and Django. Briefly interned as a junior frontend dev at a local BPO. Happiest building features users actually touch.

EXPERIENCE

Frontend Intern

JUN 2025 – AUG 2025

Bayhive BPO Solutions · Cebu IT Park

- Shipped four customer-facing pages in their internal CRM using React and Tailwind.
- Cut average ticket-form load time by 38 percent by replacing legacy modals.
- Owned the on-call rotation for the frontend during a 2-week senior leave.

Freelance Developer

2024 – PRESENT

Self-employed · Cebu City (remote)

- Built a booking site for a local barbershop chain (Next.js, SQLite).
- Maintained a Discord bot used by ~600 students for class scheduling.
