

USER PERSONA · SCRATCH MATCH

Ronnel Tan

Employer

HR lead at a growing Cebu software studio.

DEMOGRAPHICS

AGE 38

LOCATION Cebu IT Park

COMPANY Sinulog Studios · 42 employees

ROLE Head of People & Talent

TECH COMFORT Comfortable with ATS tools, dashboards

BACKGROUND

Ronnel hires roughly twelve developers and designers a year. His current pipeline is a mix of LinkedIn, Facebook groups, and word-of-mouth. He spends entire afternoons sifting through CVs that match the job title but miss the actual stack. He has lost good local candidates to manila-based recruiters who simply called first.

CORE NEED

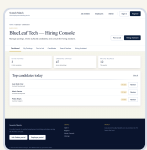

As a Employer, I want to Post a role and get a ranked shortlist filtered by real fit instead of keyword sprays, so I can reach Cebu-based talent first.

Goals

- › Cut time-to-shortlist from days to hours.
- › Source Cebu-resident candidates who will actually stay.
- › Stop relying on screening calls just to filter the obviously wrong fits.

Frustrations

- › ATS tools are priced for hundred-person teams.
- › Keyword filters reject good non-traditional candidates.
- › Foreign job boards don't surface local talent at all.

Employer Shortlist View

A view from the Scratch Match prototype that this persona touches.
