

USER PERSONA · SCRATCH MATCH

Atty. Liza Mendoza

Government (PEO Cebu City)

Public Employment Office officer, drives the city's Labor Day initiatives.

DEMOGRAPHICS

AGE 47

OFFICE PEO · Cebu City Hall

MANDATE Local employment facilitation

CONSTRAINT On-prem · data must stay in Cebu

TECH COMFORT Reads dashboards, delegates the tooling

BACKGROUND

Liza runs the city's job fairs and livelihood programs, including the new 2026 Senior Citizens Employment track. She sees Scratch Match as the missing year-round counterpart to the once-a-quarter physical events. Her two non-negotiables: data sovereignty and auditability. No foreign cloud, no opaque algorithms.

CORE NEED

As a Government (PEO Cebu City), I want to Host the service for residents on-prem, own the data, protect privacy, and report on real labor outcomes.

Goals

- › Turn one-day job fairs into a continuous matching service.
- › Surface inclusive populations: seniors, PWDs, returning OFWs.
- › Produce defensible labor-market data for council briefings.

Frustrations

- › SaaS vendors want her residents' CVs on overseas servers.
- › Existing tools cannot prove what was matched and why.
- › Reporting today is manual, slow, and behind the news cycle.

Cebu City Government

A view from the Scratch Match prototype that this persona touches.
